GUIDELINES FOR THE MASTER THESIS REPORT AND PRESENTATION

The internship (15 ECTS) and master thesis (15 ECTS) modules are developed during the second semester of the master in an academic institution, research institute or a company under the tutorial and supervision of almost a professor of the Chemistry Department of UAB.

The evaluation of the master thesis module will be performed considering a report to be elaborated by the student and a subsequent public oral presentation and discussion of this report.

Format and layout of master thesis report

- The report has to be written in English and between 20-30 pages long, using the following letter’s fonts: Times New Roman 12 or Arial 11 or Tahoma 11, with a line spacing of 1.5.

- The content will be structured into the main following chapters: abstract, introduction, objectives, results and discussion, conclusions, and experimental part. The whole set of chapters results and discussion, conclusions and experimental part should be at least 2/3 of the total length.

- On the cover it has to be included the following data:
  - UAB Logotype centered at the top part
  - Name of the master: “Master in industrial chemistry and introduction to chemical research”
  - Name of the module: “Master Thesis”
  - Title of the report
  - The names of the author and supervisor/s (in UAB and elsewhere if applicable)
  - Department, Faculty and date

- The initial page of the master thesis report has to include the following text:

  Report presented to pass the module Master Thesis from Master in industrial chemistry and introduction to chemical research [Author's name and signature]
  Approval [Supervisor/s Names and signatures]
  Bellaterra [dd:mm:yyyy]*

  Deposit date in the Chemistry Departament

- The student will deliver into the Department Secretary:
  a) Four report copies.
  b) Two electronic report copies in PDF format on two CDs, one of them for the Chemistry Department and the other in order to be incorporated to the Recercat system:

**Presentation of master thesis report**

The student will have up to 20 minutes for a public oral presentation. After that, the committee will discuss with the student about the report and the presentation for a maximum of 20 minutes.

**Master thesis committee**

Composed by four members of the Chemistry Department (permanent staff), one from every area of chemical knowledge.

**Evaluation**

The committee will consider:
- The report presented.
- The public presentation of the report.
- The discussion of the student with the tribunal about the report.
